## **JUST SAY SOMETHING ANNOUNCES ITS PARTNERSHIP WITH TECHNOLOGY COMPANY UNITE US!**

Greenville, SC – Just Say Something has joined [Unite Us](#) in South Carolina. As a partner, Just Say Something is now part of a statewide network of organizations with access to a multitude of local and state resources, enabling them to better provide much-needed assistance to community residents.

Unite Us is a technology company that builds health and social service provider networks online. With Unite Us, county and state providers across sectors can send, receive, and track secure, electronic referrals and report outcomes on a wide range of services in a centralized, cohesive, and collaborative ecosystem. Unite Us' dedicated team builds authentic, lasting partnerships among local organizations to ensure networks have a solid foundation, launch successfully, and continue to grow and thrive. Unite Us helps communities transform their ability to work together and measure impact.

Through this network, Just Say Something has the ability to locate specific resources upon request, whether inside or outside of Greenville County; provide residents with direct assistance with almost no wait time; send and receive secure, electronic referrals to and from member organizations; and track a referral's progress to completion. The network is statewide with more nonprofits and community organizations joining daily.

"We're excited about becoming a member of the Unite Us South Carolina network," said Carol Reeves, Executive Director of Just Say Something. "Joining this network will help Just Say Something form partnerships with other organizations in the community, so we may provide resources more efficiently and effectively, and continue to meet the needs of our community."

"Just Say Something is a critical partner in the network, and we're honored to have them join," said Liz Walsh, South Carolina State Director, Unite Us. "Just Say Something provides families in the Upstate essential programming at times when families and youth are struggling with so many issues. Now they have the ability to partner with other organizations in the network to provide

more comprehensive, wraparound care. We welcome any community-based organization—whether a church, a nonprofit, or a school—to join the network.”

Any community-based organizations interested learning more about Unite Us should click this link for more information: [uniteus.com/contact](https://uniteus.com/contact).

### **About Just Say Something**

Just Say Something, formerly Greenville Family Partnership, is a nonprofit, 501(c)3 community organization whose mission is to help youth, parents, and communities have open, honest, and ongoing conversations about risky behavior, drugs, and alcohol.
